“ My husband, father-in-law and myself visited Mr. Martinez's gallery more than once. We loved his work/talent! My father-in-law worked for the Purina Comapny for 30 years back in the day right on the edge of Ybor City. He frequented the Silver Ring Cafe for many lunches of cuban sandwiches. So he purchased a print of Arnold Martinez's Silver Ring Cafe sign painted with, of course, Cuban coffee! My father-in-law is now 99 y.o. and just today asked me to read the artist's name on this print on his wall. So we talked about the gallery where he puchased the print and we both remembered Mr. Martinez and chatting with him in his unique gallery. May he rest in peace and thank you sir for sharing your wonderful talent with us all!

“ I have the honor of having one of Arnold's first paintings - a painting of a large black cat with a very long tail that frequently visited the TECO Meter Department where I worked with Arnold. In addition to his talent for playing professional baseball he developed many others such as painting with different mediums such as coffee and tea. Arnold experimented with various liquids until he had several that he used for his paintings. Arnold was a pleasure to work with and will be missed. Carol and I send our prayers and condolences to Arnold's family.

“ My father in law was an extrodinary person. Whenever he decided to do something he became the best at it. These last few years we finally became close and I will miss him.

“ Arnold was a great person. We worked at Teco in the meter department and fished together for tarpon and snook. He was a most famous artist, particularly with his coffee paintings.

My condolences to the family. Arnold will be missed.
